# Taipei Medical University College of Biomedical Engineering Regulations for Awarding International Graduate Student Scholarships/Grants

Newly formulated and passed by the College Affairs Committee, April 28, 2023

Newly formulated and passed by the Student Affairs Committee, May 3, 2023

Full text in nine articles formulated via Order Bei-Yi-Xiao-Xue-Zi No. 1120008095, dated May 25, 2023

## Article 1 (Purpose)

To help international graduate students finish their academic studies and to award students with excellent academic performance, the College of Biomedical Engineering (hereafter, the “College”) has formulated these Taipei Medical University College of Biomedical Engineering Regulations for Awarding International Graduate Student Scholarships/Grants (below, the “Regulations”), and provides excellent international graduate students with incentive scholarships.

## Article 2 (Funding sources)

The funding sources of these Regulations are the Anti-pandemic Smart Biomedical Device Research Fund, the Smart Biomaterials Applications in Drug Release/Regenerative Medicine Research Fund, and the Biomedical Engineering College Fund.

## Article 3 (Application requirements)

Incentive scholarship application requirements:

- (1) Each applicant shall be a graduate student of the College of Biomedical Engineering.
- (2) At time of application, the student shall not be receiving subsidies from other scholarships.
- (3) New students shall provide academic transcripts for their prior education and a study plan.
- (4) For existing students, their overall average grades earned in the previous academic year shall be higher than 80 points.

## Article 4 (Committee composition)

The College’s Incentive Scholarship Review Panel shall consist of five

committee members. The Dean of the College shall be the ex-officio committee member and convener; other committee members shall be supervisors of the institutes (including programs).

Article 5 (Amount and distribution method)

Incentive scholarships' amounts and distribution method are as follows:

- (1) The funding shall be no more than NT\$16,000 per month. The actual amount shall be determined by the College's Incentive Scholarship Review Panel, taking into account the current overall fund-raising status, and the applicant's actual need and academic performance.
- (2) The scholarship shall be distributed once every three months, and, in total, 12 months of scholarship shall be distributed.
- (3) Students are required to re-apply for the incentive scholarship each academic year.

Article 6 (Cessation of distribution)

In the event of any of the following circumstances applying to the scholarship awardee, scholarship distribution shall be stopped and the student's eligibility for the scholarship shall be cancelled:

- (1) The student suspends their studies, withdraws from school, is expelled from school, transfers to another school or another department, etc.
- (2) Exceptional events, such as violation of school rules or disciplinary violation, occur.
- (3) For students have left Taiwan for more than 15 days, scholarship funding distribution will be suspended during their period abroad, and only continued after they return to Taiwan. No scholarship funding will be supplemented for the period abroad. However, where the time abroad is related to student exchange matters or other reasons that have received institute or program review approval, these restrictions shall not apply.
- (4) If investigation finds that there is any forgery or misrepresentation in the awardee's application process, the awardee's eligibility for the scholarship shall be revoked, any incentive scholarship funding already received by the awardee shall be returned, and the awardee shall lose their eligibility to apply for future scholarships.

Article 7 (Application method)

Application method: The applicant shall prepare the following documents and file an application with the College of Biomedical Engineering, during the Oct. 1 to Oct. 31 period:

(1) New students:

1. One application form (attachment 1)
2. One study plan
3. One complete set of transcripts for previous education
4. An affidavit guaranteeing no receipt of other incentive scholarships (attachment 2)

(2) Existing students:

1. One application form (attachment 1)
2. One complete set of transcripts for previous education
3. An affidavit guaranteeing no receipt of other incentive scholarships (attachment 2)

Article 8 (Special cases)

In the event of any special circumstances, an application may be submitted in project form. The Dean shall then convene a review committee meeting to discuss the case separately.

Article 9 (Statutory approval authorization)

After passage by the College of Biomedical Engineering College Affairs Meeting, then by the Student Affairs Meeting, these Regulations shall then be promulgated and take effect. The same shall apply in the event of any revision.
